INSTRUCTIONS Please read the offer document carefully before signing the application form and tendering payment. The application form should be filled in Block letters in English only.

A) INVESTORS DETAILS

- Applicant's name and address must be given in full (P.O. Box No. alone is not sufficient).
- All communication and payments shall be made to the first applicant or the Karta in case of HUF.
- The subscription amounts can be tendered by cheque payable locally at any of the AMC offices or Bank Collection Centres, crossed "A/c Payee only".
- Please mention the application form number and the name of the first applicant on the reverse of the instrument.

B) PAN DETAILS

As per SEBI Circular No. MRD/DoP/Cir- 05/2007 dated April 27, 2007, it is now mandatory that Permanent Account Number (PAN) issued by the Income Tax Department would be the sole identification number for all participants transacting in the securities market, irrespective of the amount of transaction. Accordingly investors will be required to furnish a copy of PAN together with request for fresh purchases, additional purchases and systematic investments registration (SIP). Application Forms without these information and documents will be considered incomplete and are liable to be rejected without any reference to the investors. The procedure implemented by the AMC and the decisions taken by the AMC in this regard shall be deemed final.

C) DETAILS FOR COMPLIANCE WITH ANTI MONEY LAUNDERING REGULATIONS OF SEBI

Prevention of Money Laundering Act, the SEBI Circulars on Anti Money Laundering and the Client Identification implementation procedures prescribed by AMFI inter alia require the AMC to verify the records of identity and address(es) of investors. To ensure adherence to these requirements, investors are required to approach Points of Service (POS) (list of POS available on amfiindia.com) appointed by CDSL Ventures Limited and submit documents for completion of appropriate KYC checks. The details for KYC compliance can also be downloaded from AMFI website, www.amfiindia.com or website of the mutual fund, www.idfcmf.com. The Mutual Fund website also prescribes the list of documents that can be submitted by investors to the POS to get their KYC checks completed.

It is mandatory for all applications for subscriptions of Rs. 50,000/- and above to submit necessary documents for compliance with Anti money laundering (guardian in case of minor). The guidelines will be applicable for both Institutional as well as Non Institutional investors. The sole applicant or in case of joint application, each of the applicants, falling within the category, should ensure compliance with requirements to submit necessary KYC documents to POS while filling the application form. In case of investments through Power of Attorneys (POA), the transaction request needs to be accompanied with the proof of having complied with KYC of POA holder and the investor. Registrars (CAMS) will overwrite static data of investors with data from CVL. After completion of KYC compliance, investors need to approach CVL for Change of Address and not Registrar (CAMS). In respect of KYC compliant Folio, prospective Change of Address received along with transaction slip will not be processed by Registrar (CAMS). The AMC reserves the right to reject subscription requests in the absence of appropriate compliance with the AML Laws.

D) PAYMENT OPTIONS

RESIDENT INVESTORS

- The subscription amounts can be tendered by cheque payable locally at any location where we have an NFO Collection Centre and crossed "A/c Payee only". Application forms accompanied with outstation cheques/ post dated cheques will not be accepted.
- Cheque has to be drawn on "IDFC Monthly Income Plan".
- Investors residing in cities with no NFO Collection Centre can apply through DD. The AMC will not accept any request for refund of demand draft charges.

NON-RESIDENT INVESTOR

- In case of FII/ NRIs/ Persons of Indian Origin applying on repatriation basis, payment may be made by Cheques drawn out of NRE/ FCNR Accounts.
- In case of Indian Rupee drafts purchased from abroad or payments from FCNR/NRE accounts, a Certificate from the Bank issuing the draft confirming the debit and/ or foreign inward remittance Certificate (FIRC) issued by investor's banker should also be enclosed. The Mutual Fund reserves the right to hold redemption proceeds in case the requisite details are not submitted.

E) INVESTMENT DETAILS AND DEFAULT OPTIONS

- Minimum investment amount is Rs. 5,000/- and in multiples of Re. 1/- thereafter.
- You can opt for either Growth Option (for capital appreciation) or Dividend/payout, reinvestment or Sweep Option (for regular income) by selecting the particular Option.
- In case you wish to opt for both the Options, please fill separate application forms.
- If no indication is given by the investor in the scheme, the default option will be Growth and in case of Dividend Payout / Reinvestment / Sweep option, the default option will be Dividend Reinvestment. Please also fill Target Scheme Name & Options in case of Dividend Sweep.
- If the mandate of operation is not clearly ticked, the default option will be 'Joint' in case the number of holders is more than one.

F) APPLICATIONS UNDER POWER OF ATTORNEY

In case of an application under a Power of Attorney please submit a notarised copy of the Power of Attorney along with the application form. The Mutual Fund reserves the right to reject applications not accompanied by a Power of Attorney. Further, the Mutual Fund reserves the right to hold redemption proceeds in case the requisite documents are not submitted.

G) APPLICATIONS BY LIMITED COMPANY/ FIRM/ TRUST/ BODY CORPORATE/ REGD. SOCIETY

In case of an application by a Limited Company/ Body Corporate/ Registered Society/ Trust/ Partnership Firm, please submit the following documents within seven days from the date of application submission, quoting the details of the application at the Registrar's office at Chennai.

Trust : Duly certified copies of Trust Deed, specimen signatures of the authorised signatories & relevant resolution.

KEY INFORMATION MEMORANDUM

This Key Information Memorandum (KIM) sets forth the information, which a prospective investor ought to know before investing. For further details of the scheme/Mutual Fund, due diligence certificate by the AMC, Key Personnel, investors' rights & services, risk factors, penalties & pending litigations etc. investors should, before investment, refer to the Scheme Information Document and Statement of Additional Information available free of cost at any of the Investor Service Centres or distributors or from the website www.idfcmf.com.

The Scheme particulars have been prepared in accordance with Securities and Exchange Board of India (Mutual Funds) Regulations 1996, as amended till date, and filed with Securities and Exchange Board of India (SEBI). The units being offered for public subscription have not been approved or disapproved by SEBI, nor has SEBI certified the accuracy or adequacy of this KIM.

Investment Objective	The primary objective of Scheme is to generate regular returns through investment primarily in debt oriented Mutual Fund schemes (such as Income and Liquid funds). The secondary objective of the Scheme is to generate long-term capital appreciation by investing a portion of the Scheme's assets in equity oriented MF schemes. Monthly Income is not assumed and the same is subject to availability of distributable surplus.
-----------------------------	---

Asset Allocation Pattern of the scheme	Types of Instruments	Normal Allocation (% of Net Assets)
	Units of mutual funds investing in debt/liquid/income funds	65% – 100%
	Units of mutual funds investing in equity funds	0% – 25%
	Money Market instruments	0% - 15%

Investment strategy of the scheme
The primary objective of Scheme is to generate regular returns through investment primarily in debt oriented Mutual Fund schemes (such as Income and Liquid funds). The secondary objective of the Scheme is to generate long-term capital appreciation by investing a portion of the Scheme's assets in equity oriented MF schemes.

The scheme will be fund of fund that will combine the benefits of asset allocation and manager diversification in a single product. Asset allocation allows investors to improve their risk adjusted returns as different asset classes such as equity and debt offer lower correlations with each other. The fund of fund approach allows the fund manager to participate in funds with different styles within each asset class and to easily switch styles depending on the view of the markets. For example within the overall debt allocation of the scheme, the fund manager can invest in schemes with different maturity profiles – money market, medium term or long term.

The fund will follow the following 4-step approach in managing the scheme:

a) Create a master shortlist of schemes : The fund manager will carry out a review of different equity and debt schemes that have investment philosophy in line with the scheme's objectives and that are open for subscription. The fund manager will shortlist a series of potential mutual fund schemes based on parameters such as quality of sponsors, AuM of the fund, performance of the scheme and investment objectives. The shortlist will be reviewed and modified on an on-going basis. Final investments will only be made to schemes that are a part of this shortlist.

b) Decide the asset allocation between equity and debt : The fund manager can choose to allocations depending on the view of the market and on risk-return considerations. The fund will arrive at an overall asset allocation between equity and debt which will be within the overall asset allocation pattern as mentioned in the scheme. The asset allocation can make the scheme overweight, neutral or underweight in debt as compared to equity.

The neutral allocation of the fund will be

Debt and Money market funds	65% - 75%
Equity Funds	20% - 25%
Money Market securities	5% - 10%

The asset allocation will be reviewed on a monthly basis.

c) Select schemes from the shortlist to invest : The fund manager will aim to create a portfolio through investments that are complementary to each other and enables it to diversify. The portfolio will look to invest in schemes from different sponsors. The fund will select schemes from its shortlist.

d) Monitor performance of funds : The fund manager will carry out detailed on-going review of the shortlisted schemes. Additionally be in active touch with the managers of the said schemes to understand the background to their performance and to understand their portfolio positioning.

Risk Profile of the Scheme
Mutual Fund Units involve investment risks including the possible loss of principal. Please read the SID carefully for details on risk factors before investment. Scheme specific Risk Factors are summarized below:

1. The Scheme returns can be impacted by issues pertaining to the NAV's of underlying schemes of mutual funds where the fund has invested. These could be issues such as uncharacteristic performance, changes in the business ownership and / or investment process, key staff departures etc.
2. The NAVs of the underlying scheme where the Scheme has invested may be impacted generally by factors affecting securities markets, such as price and volume volatility in the capital markets, interest rates, currency exchange rates, changes in government policies, taxation laws or any other appropriate policies and other political and economic developments. Consequently, the NAV of the Scheme may fluctuate accordingly.
3. The investors will bear the recurring expenses of the Scheme in addition to the expenses of the Underlying Schemes in which Investments are made by the scheme. As a result, the returns that they may obtain may be materially impacted or at times be lower than the returns that investors directly investing in such Schemes may obtain.
4. While the scheme endeavors to give dividend on a monthly basis, the ability for payment of the same will be dependent on the scheme having distributable surplus. Accordingly investors may not get dividend in certain months in case distributable surplus is not available.

To the extent the scheme invests in debt/money market instruments, the following risks are likely to be affected:

Price-Risk or Interest-Rate Risk: Fixed income securities such as bonds, debentures and money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices is a function of the existing coupon, days to maturity and the increase or decrease in the level of interest rates.

Credit Risk: In simple terms this risk means that the issuer of a debenture/bond or a money market instrument may default on interest payment or even in paying back the principal amount on maturity. Even where no default occurs, the price of a security may go down because the credit rating of an issuer goes down. It must, however, be noted that where the Scheme has invested in Government Securities, there is no credit risk to that extent. Different types of securities in which the scheme would invest as given in the scheme information document carry different levels and types of risk. Accordingly the scheme's risk may increase or decrease depending upon its investment pattern. E.g. corporate bonds carry a higher amount of risk than Government securities. Further even among corporate bonds, bonds which are AAA rated are comparatively less risky than bonds which are AA rated.

Re-investment Risk: Investments in fixed income securities may carry re-investment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

Basis Risk: During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. Where swaps are used to hedge an underlying fixed income security, basis risk could arise when the fixed income yield curve moves differently from that of the swap benchmark curve.

Spread Risk: In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

Liquidity Risk: The corporate debt market is relatively illiquid vis-a-vis the government securities market. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer. Even though the Government Securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information (SAI).

Risk management strategies	<p>The Fund is a hybrid fund of fund and by utilizing a holistic risk management strategy will endeavor to manage risks of the underlying equity and debt markets. The risk control process involves identifying & measuring the risk through various risk measurement tools.</p> <p>The Fund has identified following risks of investing in mutual fund schemes and designed risk management strategies, which are embedded in the investment process to manage such risks.</p>	
	Risk & Description specific to fund of funds	Risk mitigants / management strategy
	Quality risk	
	Risk of investing in fund with poor performance	Fund universe carefully selected to only include high quality schemes
	Liquidity risk	
	Risk of liquidity impact of entering/exiting the underlying funds	Scheme will ensure that the investment made by the scheme are not material to the overall AuM of the underlying scheme
	Concentration risk	
		Invest in multiple funds with varying investment style and allocation to different segment of the equity and debt markets
	Volatility	
	Price volatility due to volatility in the equity and debt markets	Control the asset allocation of the scheme to manage volatility. The scheme can go underweight or overweight equity relative to debt based on the expected volatility in the 2 asset classes.
