(Past performance is no guarantee of future results).

On the future outlook, the equity market will have two drivers in the near term – domestic policies and international economic trends. While the former will be conducive to growth the international economic trend is still in a decline. For the rest of the year we could continue to see the latter influencing the way equities are priced. The year will continue to remain challenging for equity funds.

Given peak level of rates, sufficient liquidity and high government borrowings the bond market is expected to be volatile.

Auditors' Report

To the Board of Directors of IDFC AMC Trustee Company Limited (*formerly known as Standard Chartered Trustee Company Private Limited*) IDFC - Tristar Series I

We have audited the attached balance sheet of IDFC Mutual Fund (*formerly known as Standard Chartered Mutual Fund*) – IDFC - Tristar Series I ('the Scheme') as at 12 January 2009 (date of closure of the Scheme) and the related revenue account for the period ended on that date annexed thereto.

These financial statements are the responsibility of the Board of Directors of IDFC AMC Trustee Company Limited, trustee to IDFC Mutual Fund ('the Fund') and the management of IDFC Asset Management Company Limited (*formerly known as Standard Chartered Asset Management Company Private Limited*), investment manager to the Fund. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in India. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

We report thereon as follows:

- We have obtained all the information and explanations, which, to the best of our knowledge and belief, were necessary for the purpose of the audit;
- The balance sheet and the related revenue account dealt with by this report are in agreement with the books of account of the Scheme;
- In our opinion and to the best of our information and according to the explanations given to us the balance sheet as at 12 January 2009 and the related revenue account for the period ended on that date, together with the notes thereon, have been prepared in accordance with the accounting policies and standards specified in the Ninth Schedule of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 and amendments thereto, as applicable;

1. Background

IDFC Mutual Fund – formerly Standard Chartered Mutual Fund (‘the Fund’) is sponsored by Infrastructure Development Finance Company Limited (IDFC) (formerly sponsored by Standard Chartered Bank, U.K. – ‘SCB’) and is constituted as a Trust under the Indian Trust Act, 1882 with IDFC AMC Trustee Company Private Limited (formerly - Standard Chartered Trustee Company Private Limited) (‘the Trustee’) as trustee. In accordance with the Securities and Exchange Board of India (SEBI) (Mutual Funds) Regulations, 1996 (‘the Regulations’) and amendments thereto, as applicable, the Trustees have entrusted the investment management function to IDFC Asset Management Company Private Limited (formerly - Standard Chartered Asset Management Company Private Limited) (‘the AMC’)

Standard Chartered Mutual Fund was renamed as IDFC Mutual Fund after the Securities and Exchange Board of India (SEBI) provided its no objection to the change in sponsor of the Mutual Fund vide its letter dated April 22, 2008. Change in sponsor of the Mutual Fund was carried out in accordance with the requirements specified under the SEBI (Mutual Fund) Regulations 1996. Standard Chartered Bank, the sponsor of the Mutual Fund, sold the equity and preference shares held by it in the AMC and the equity shares held by it in the Trustee Company (‘the TC’), to Infrastructure Development Finance Company Limited (IDFC), on May 30th 2008. The minority shareholders in the AMC and TC, also sold the equity shares held by them in the AMC and TC, to IDFC. Consequently, with effect from May 31, 2008, IDFC is the Sponsor of the Mutual Fund.

The schemes mentioned below (‘the Schemes’) are close ended schemes and their investment objective is to seek to generate income by investing in a portfolio of debt and money market instruments normally maturing in line with the time profile of the schemes. In case of IDFC SCTS, in addition to the above, the scheme also seeks to provide capital appreciation from its investments in equity and equity related instruments:

IDFC Fixed Maturity Plan – Yearly Series 10 (IDFC FMP – YS10)

IDFC Fixed Maturity Plan – Yearly Series 11 (IDFC FMP – YS11)

IDFC Fixed Maturity Plan – Yearly Series 12 (IDFC FMP – YS12)

IDFC – Tristar Series I (IDFC TS Series I)

IDFC Fixed Maturity Plan – 6th Plan (IDFC FMP – 6th Plan)

IDFC Quarterly Interval Fund – Plan A (IDFC QIF – Plan A)

IDFC Quarterly Interval Fund – Plan A (IDFC QIF – Plan A)

IDFC QIF – Plan A is an open ended interval income scheme launched on September 17, 2007 and the units were allotted on September 22, 2007. The investment objective of the Scheme is to seek to generate returns from investments in Debt and Money Market instruments. The Scheme being an interval income scheme will be available for subscription / switch ins and redemption / switch outs without any load on the specified transaction date(s). The scheme offers two further sub-plans viz. 2. Significant accounting policies

2.1 *Basis of preparation of financial statements*

The financial statements are prepared and presented under the historical cost convention, as modified for investments which are 'marked-to-market', on the accrual basis of accounting and in accordance with the accounting policies and standards specified in the Ninth Schedule of the Regulations and amendments thereto, and the accounting principles generally accepted in India and comply with the accounting standards and guidance notes issued by the Institute of Chartered Accountants of India (the 'ICAI'), to the extent applicable.

The above schemes are Level III - Small and Medium Sized Enterprise ('SME') in accordance with the announcement made by the ICAI which is effective for all accounting periods commencing on or after 1 April 2004. Accordingly, these schemes are not required to present the cash flow statement, segment disclosures and related party disclosures as required under the respective Accounting Standards.

2.2 *Use of estimates*

The preparation of financial statements in conformity with Generally Accepted Accounting Principles ('GAAP') requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities as at the date of the financial statements and the reported amount of revenues and expenses during the reported period. The estimates and the assumptions used in the accompanying financial statements are based upon management's evaluation of relevant facts and circumstances as at the date of the financial statements. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Any revision to accounting estimates is recognized prospectively in the current and future periods.

2.3 Investments

Basis of accounting

- Transactions for purchase and sale of investments are recorded on trade date. The cost of investments includes all costs incurred in acquiring the investments and incidental to acquisition of investments. Any front end-discount on privately placed investments is reduced from the cost of such investments.
- Broken period interest paid and received is not included in the cost of purchases and sales proceeds respectively.

Valuation

- Investments for the purpose of valuation are classified as traded and non traded in accordance with the provisions of the Regulations.
- Investments are valued as follows:

Traded debt securities

Government securities

- Government securities are valued at prices obtained from Credit Rating Information Services of India Limited ('CRISIL') in accordance with the guidelines for valuation of securities for mutual funds prescribed in the Regulations.

Other traded debt securities

- Traded debt securities (other than Government securities) are valued at the last quoted closing price on NSE as on the date of valuation.

Non-traded/ thinly traded debt securities

- Non traded debt securities (other than Government Securities) are securities that are not traded on any stock exchange for a period of fifteen days prior to the valuation date.
- Non traded / thinly traded debt securities with residual maturity of over 182 days to maturity are valued on a yield to maturity basis, by using spreads over the benchmark rate to arrive at the yield for pricing the security. These are valued as per procedures approved by the Trustees and on the basis of the valuation principles laid down by the Regulations.
- Non traded securities purchased with residual maturity upto 182 days are valued at cost / last valuation price (including accrued interest till the beginning of the day) plus the difference between the redemption value (inclusive of interest) and cost / last valuation price, spread uniformly over the remaining maturity period of the instrument.

2.3 Investments (*Continued*)

Debt securities with put/call options

- Securities with call option are valued at the lower of the value as obtained by valuing the security to final maturity and valuing the security to call option. In case there are multiple call options, the lowest value obtained by valuing to the various call dates and valuing to the maturity date is taken as the value of the instrument.
- Securities with put option are valued at the higher of the value as obtained by valuing the security to final maturity and valuing the security to put option. In case there are multiple put options, the highest value obtained by valuing to the various put dates and valuing to the maturity date is taken as the value of the instrument.
- The securities with both put and call option on the same day would be deemed to mature on the put/call day and would be valued at the prevailing market price.

Money Market Instruments

- Traded money market securities are valued at the yield they were traded as on the valuation date. In case these securities are not traded, they are valued at the last traded price plus accretion of difference between the redemption value and the last traded price.

Reverse Repos

- Instruments bought on 'repo' basis are valued at the resale price after deduction of applicable interest upto date of resale.

Collateralized Borrowings and Lending Obligations (CBLO) and Bills Rediscounting (BRDS)

- CBLOs and BRDS are valued at cost plus accrued interest.

Asset backed securities

- Asset backed securities with a residual maturity over 182 days and having variable cash flows are valued on the same basis as that for non traded securities with residual maturity over 182 days.
- Asset backed securities with a residual maturity upto 182 days and having variable cash flows are valued on the basis of amortization, the last valued yield being the base for amortization.

Mutual Fund Units

- Mutual fund units are valued at the respective scheme's per unit net asset value ('NAV') prevailing as at the valuation date.

2. Significant accounting policies (*Continued*)

2.3 *Investments (Continued)*

In accordance with the Guidance Note on 'Accounting for Investments in the Financial Statements of Mutual funds' issued by the ICAI, (pursuant to the Eleventh Schedule of the Regulations), net unrealized gain or loss in the value of investments is determined separately for each category of investments. The loss on investments sold or transferred during the period or year is charged to the revenue account instead of being first adjusted against the provision for depreciation, if already created in the previous year. The unrealised loss/gain is reversed on the first day of the immediately succeeding financial year. However, this departure from the Guidance Note does not have any net impact on the scheme's net assets and the financial statements of the scheme.

2.4 *Revenue recognition*

Interest income is recorded on period proportionate basis.

Profit or loss on sale / redemption of investments represents sale proceeds less weighted average cost and is recognised on a trade date basis.

In accordance with the Guidance Note on 'Accounting for Investments in the Financial Statements of Mutual Funds' issued by the ICAI (pursuant to the Eleventh Schedule of the Regulations), net unrealized appreciation/depreciation in the value of investments and derivatives is determined for each categories of investments and derivatives, wherein the cost is compared with the market / fair value and the resultant appreciation is credited to Unrealized Appreciation Reserve and any depreciation is charged to the revenue account

2.5 *Computation of Net Asset Value (NAV)*

The NAV of a scheme is computed separately for units issued under the various options of the relevant plans, although the corresponding scheme's investments and other net assets are managed as a single portfolio. For computing the NAV for various plans/options, daily income earned, including realised and unrealised gains or losses in the value of investments and expenses incurred by the corresponding scheme are allocated to the plans/options in proportion to the net assets of each plan/option.

2.6 *Unit premium reserve*

When units are issued or redeemed, the net premium or discount to the face value is transferred to the unit premium reserve. The unit premium reserve is available for dividend distribution except to the extent it is represented by unrealised net appreciation in investments.

2.7 *Load charges*

Load collected is retained under a separate account in the scheme and is utilised to meet the selling and distribution expenses of the scheme.

2.8 *Deferred revenue expenditure*

Initial issue expenses are charged in accordance with the offer document and within the limits specified by SEBI. These expenses are considered as deferred revenue expenditure and are amortized over the tenure of the scheme from the date of allotment.
