1 Background

IDFC Mutual Fund - formerly Standard Chartered Mutual Fund (the Fund) is sponsored by Infrastructure Development Finance Company Limited (IDFC) (formerly sponsored by Standard Chartered Bank, U.K. - "SCB") and is constituted as a Trust under the Indian Trust Act, 1882 with IDFC AMC Trustee Company Private Limited (formerly - Standard Chartered Trustee Company Private Limited) (the Trustee) as trustee. In accordance with the Securities and Exchange Board of India (SEBI) (Mutual Funds) Regulations, 1996 (the Regulations) and amendments thereto, as applicable, the Trustees have entrusted the investment management function to IDFC Asset Management Company Private Limited (formerly - Standard Chartered Asset Management Company Private Limited) (the AMC).
 Standard Chartered Mutual Fund was renamed as IDFC Mutual Fund after the Securities and Exchange Board of India (SEBI) provided its no objection to the change in sponsor of the Mutual Fund vide its letter dated April 22, 2008. Change in sponsor of the Mutual Fund was carried out in accordance with the requirements specified under the SEBI (Mutual Fund) Regulations 1996. Standard Chartered Bank, the sponsor of the Mutual Fund, sold the equity and preference shares held by it in the AMC and the equity shares held by it in the Trustee Company (the TC), to Infrastructure Development Finance Company Limited (IDFC), on May 30th 2008. The minority shareholders in the AMC and TC, also sold the equity shares held by them in the AMC and TC, to IDFC. Consequently, with effect from May 31, 2008, IDFC is the Sponsor of the Mutual Fund.

2 Significant accounting policies

2.1 Basis of accounting

- The Scheme(s) maintains their books of account on accrual basis.
- 2.2 Portfolio Valuation:** Investments are stated at market/fair value at the Balance Sheet date/ date of determination. In valuing the Scheme's investments:
 - Traded securities are valued at the last quoted closing price on the principal stock exchange on which the security is traded.
 - Thinly Traded Equity / Equity related securities are those securities whose trade in a month, are both less than Rs. 5 lacs and the total volume is less than 50,000 shares. These securities will be fair valued as per procedures determined by the AMC and approved by Trustee of the Mutual Fund, in accordance with the SEBI Regulations and related circulars.
 - Investments in Money market instruments (non traded) are valued on the basis of amortization (cost plus accrued interest till the beginning of the day plus the difference between the redemption value and the cost spread uniformly over the remaining maturity period of the instruments).
 - Non Traded / Thinly Traded Securities / Asset Backed Securities of over 182 days to maturity are valued in good faith by the Investment Manager on the basis of valuation principles laid down by SEBI. The approach in valuation of Non Traded Debt Securities is based on the concept of using spreads over the Government Securities to arrive at the yields for the pricing the Non Traded Debt Security.
 - A debt security (other than Government Securities) is considered as a thinly traded security if on the valuation date, there are no individual trades in that security in marketable lots (presently Rs. 5 crore) on the principal stock exchange or any other stock exchange.
 - Non Traded / Thinly Traded Debt Securities / Asset Backed Securities purchased with residual maturity of upto 182 days are valued at cost (including accrued interest till the beginning of the day) plus the difference between the redemption value (inclusive of interest) and cost spread uniformly over the remaining maturity period of the instrument.
 - Government Securities are valued at the prices released by CRISIL, which is currently the only approved agency suggested by Association of Mutual Funds in India (AMFI).
 - In case of equity derivatives, the open position of exchange traded equity derivatives are marked to market on daily basis at the closing prices provided by the respective stock exchange. Realised gain / loss on closure / expiry of exchange traded equity derivatives are accounted as realised gain / loss on investments. Initial margin paid against equity derivatives is accounted as current assets.
 - In accordance with SEBI guidelines, the Fund enters into derivative transactions in the form of short dated Interest Rate Swaps. Such interest rate swaps are accounted for on accrual basis if they are of less than 182 days else they are marked to market.
