(Past performance is no guarantee of future results).

On the future outlook, the equity market will have two drivers in the near term – domestic policies and international economic trends. While the former will be conducive to growth the international economic trend is still in a decline. For the rest of the year we could continue to see the latter influencing the way equities are priced. The year will continue to remain challenging for equity funds.

Given peak level of rates, sufficient liquidity and high government borrowings the bond market is expected to be volatile.

### 1. Background

IDFC Mutual Fund – formerly Standard Chartered Mutual Fund (‘the Fund’) is sponsored by Infrastructure Development Finance Company Limited (IDFC) (formerly sponsored by Standard Chartered Bank, U.K. – ‘SCB’) and is constituted as a Trust under the Indian Trust Act, 1882 with IDFC AMC Trustee Company Private Limited (formerly - Standard Chartered Trustee Company Private Limited) (‘the Trustee’) as trustee. In accordance with the Securities and Exchange Board of India (SEBI) (Mutual Funds) Regulations, 1996 (‘the Regulations’) and amendments thereto, as applicable, the Trustees have entrusted the investment management function to IDFC Asset Management Company Private Limited (formerly - Standard Chartered Asset Management Company Private Limited) (‘the AMC’)

Standard Chartered Mutual Fund was renamed as IDFC Mutual Fund after the Securities and Exchange Board of India (SEBI) provided its no objection to the change in sponsor of the Mutual Fund vide its letter dated April 22, 2008. Change in sponsor of the Mutual Fund was carried out in accordance with the requirements specified under the SEBI (Mutual Fund) Regulations 1996. Standard Chartered Bank, the sponsor of the Mutual Fund, sold the equity and preference shares held by it in the AMC and the equity shares held by it in the Trustee Company (‘the TC’), to Infrastructure Development Finance Company Limited (IDFC), on May 30th 2008. The minority shareholders in the AMC and TC, also sold the equity shares held by them in the AMC and TC, to IDFC. Consequently, with effect from May 31, 2008, IDFC is the Sponsor of the Mutual Fund.

The schemes mentioned below (‘ the Schemes’) are close ended schemes and their investment objective is to seek to generate income by investing in a portfolio of debt and money market instruments normally maturing in line with the time profile of the schemes:

IDFC Fixed Maturity Plan – Quarterly Series 41 (IDFC FMP – QS41)

\* In case the maturity date falls on a holiday, the maturity date will be the next working day.

All the above mentioned schemes offer a choice of two Investment options viz, Growth and Dividend. Reinvestment facility is available under the Dividend Option.

## **Schedules to the financial statements (*Continued*)**

*for the period*

(Currency: Indian Rupee)

### **2. Significant accounting policies**

#### **2.1 *Basis of preparation of financial statements***

The financial statements are prepared and presented under the historical cost convention, as modified for investments which are 'marked-to-market', on the accrual basis of accounting and in accordance with the accounting policies and standards specified in the Ninth Schedule of the Regulations and amendments thereto, and the accounting principles generally accepted in India and comply with the accounting standards and guidance notes issued by the Institute of Chartered Accountants of India (the 'ICAI'), to the extent applicable.

The above schemes are Level III - Small and Medium Sized Enterprise ('SME') in accordance with the announcement made by the ICAI which is effective for all accounting periods commencing on or after 1 April 2004. Accordingly, these schemes are not required to present the cash flow statement, segment disclosures and related party disclosures as required under the respective Accounting Standards.

#### **2.2 *Use of estimates***

The preparation of financial statements in conformity with Generally Accepted Accounting Principles ('GAAP') requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent liabilities as at the date of the financial statements and the reported amount of revenues and expenses during the reported period. The estimates and the assumptions used in the accompanying financial statements are based upon management's evaluation of relevant facts and circumstances as at the date of the financial statements. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Any revision to accounting estimates is recognized prospectively in the current and future periods.

#### **2.3 *Investments***

##### *Basis of accounting*

- Transactions for purchase and sale of investments are recorded on trade date. The cost of investments includes all costs incurred in acquiring the investments and incidental to acquisition of investments. Any front end-discount on privately placed investments is reduced from the cost of such investments.
- Broken period interest paid and received is not included in the cost of purchases and sales proceeds respectively

##### *Valuation*

- Investments for the purpose of valuation are classified as traded and non traded in accordance with the provisions of the Regulations.
- Investments are valued as follows:

## **Schedules to the financial statements (*Continued*)**

*for the period*

(Currency: Indian Rupee)

### **2. Significant accounting policies (*Continued*)**

#### **2.3 Investments (*Continued*)**

*Traded debt securities*

*Government securities*

- Government securities are valued at prices obtained from Credit Rating Information Services of India Limited ('CRISIL') in accordance with the guidelines for valuation of securities for mutual funds prescribed in the Regulations.

*Other traded debt securities*

- Traded debt securities (other than Government securities) are valued at the last quoted closing price on NSE as on the date of valuation.

*Non-traded/ thinly traded debt securities*

- Non traded debt securities (other than Government Securities) are securities that are not traded on any stock exchange for a period of fifteen days prior to the valuation date.
- Non traded / thinly traded debt securities with residual maturity of over 182 days to maturity are valued on a yield to maturity basis, by using spreads over the benchmark rate to arrive at the yield for pricing the security. These are valued as per procedures approved by the Trustees and on the basis of the valuation principles laid down by the Regulations.
- Non traded securities purchased with residual maturity upto 182 days are valued at cost / last valuation price (including accrued interest till the beginning of the day) plus the difference between the redemption value (inclusive of interest) and cost / last valuation price, spread uniformly over the remaining maturity period of the instrument.

*Debt securities with put/call options*

- Securities with call option are valued at the lower of the value as obtained by valuing the security to final maturity and valuing the security to call option. In case there are multiple call options, the lowest value obtained by valuing to the various call dates and valuing to the maturity date is taken as the value of the instrument.
- Securities with put option are valued at the higher of the value as obtained by valuing the security to final maturity and valuing the security to put option. In case there are multiple put options, the highest value obtained by valuing to the various put dates and valuing to the maturity date is taken as the value of the instrument.
- The securities with both put and call option on the same day would be deemed to mature on the put/call day and would be valued at the prevailing market price.

*Money Market Instruments*

- Traded money market securities are valued at the yield they were traded as on the valuation date. In case these securities are not traded, they are valued at the last traded price plus accretion of difference between the redemption value and the last traded price.

### **2. Significant accounting policies (*Continued*)**

#### **2.3 Investments (*Continued*)**

##### *Reverse Repos*

- Instruments bought on 'repo' basis are valued at the resale price after deduction of applicable interest upto date of resale.

##### *Collateralized Borrowings and Lending Obligations (CBLO) and Bills Rediscounting (BRDS)*

- CBLOs and BRDS are valued at cost plus accrued interest.

##### *Asset backed securities*

- Asset backed securities with a residual maturity over 182 days and having variable cash flows are valued on the same basis as that for non traded securities with residual maturity over 182 days.
- Asset backed securities with a residual maturity upto 182 days and having variable cash flows are valued on the basis of amortization, the last valued yield being the base for amortization.

##### *Mutual Fund Units*

- Mutual fund units are valued at the respective scheme's per unit net asset value ('NAV') prevailing as at the valuation date.

In accordance with the Guidance Note on 'Accounting for Investments in the Financial Statements of Mutual funds' issued by the ICAI, (pursuant to the Eleventh Schedule of the Regulations), net unrealized gain or loss in the value of investments is determined separately for each category of investments. The loss on investments sold or transferred during the period or year is charged to the revenue account instead of being first adjusted against the provision for depreciation, if already created in the previous year. The unrealised loss/gain is reversed on the first day of the immediately succeeding financial year. However, this departure from the Guidance Note does not have any net impact on the scheme's net assets and the financial statements of the scheme.

#### **2.4 Revenue recognition**

Interest income is recorded on period proportionate basis.

Profit or loss on sale / redemption of investments represents sale proceeds less weighted average cost and is recognised on a trade date basis.

In accordance with the Guidance Note on 'Accounting for Investments in the Financial Statements of Mutual Funds' issued by the ICAI (pursuant to the Eleventh Schedule of the Regulations), net unrealized appreciation/depreciation in the value of investments and derivatives is determined for each categories of investments and derivatives, wherein the cost is compared with the market / fair value and the resultant appreciation is credited to Unrealized Appreciation Reserve and any depreciation is charged to the revenue account.

### **2. Significant accounting policies (*Continued*)**

#### **2.5 *Computation of Net Asset Value (NAV)***

The NAV of a scheme is computed separately for units issued under the various options, although the corresponding scheme's investments and other net assets are managed as a single portfolio. For computing the NAV for various options, daily income earned, including realised and unrealised gains or losses in the value of investments and expenses incurred by the corresponding scheme are allocated to the options in proportion to the net assets of each option.

#### **2.6 *Unit premium reserve***

When units are issued or redeemed, the net premium or discount to the face value is transferred to the unit premium reserve. The unit premium reserve is available for dividend distribution except to the extent it is represented by unrealised net appreciation in investments.

#### **2.7 *Load charges***

Load collected is retained under a separate account in the scheme and is utilised to meet the selling and distribution expenses of the scheme.

**Risk Factors :** Mutual Funds and securities investments are subject to market risks, reinvestment risk, changes in political, economic environment and government policy and there is no assurance or guarantee that the objectives of the Scheme/s will be achieved. The NAV of the Scheme/s can go up or down depending on factors and forces affecting the Securities Market including fluctuation in interest rates, trading volumes and reinvestment risk. Past performance of the Sponsor/AMC/Mutual Fund is not necessarily indicative of the future performance of the Scheme/s and may not necessarily provide a basis for comparison with other investments. IDFC Fixed Maturity Plan - Quarterly Series (41 to 48) are names of the Schemes and do not in any manner indicate either the quality of the Schemes, their future prospects or returns. The Sponsor or any of its associates is not responsible or liable for any loss resulting from the operation of the Schemes beyond the corpus of the Trust of Rs. 30,000. **Investment Objective:** IDFC Fixed Maturity Plan - Quarterly Series (41 to 48): The investment objective of the Scheme is to seek to generate income by investing in a portfolio of debt and money market instruments normally in line with the duration of the scheme. **Statutory Details:** IDFC Mutual Fund has been set up as a trust by Infrastructure Development Finance Company Limited (IDFC) (liability restricted to corpus of Trust of Rs. 30,000) with IDFC AMC Trustee Company Ltd as the trustee and IDFC Asset Management Company Ltd as the investment manager. Investors in the scheme(s) are not being offered any guaranteed or assured rate of return. Copy of Scheme Information Document and Key Information Memorandum along with application form for all the schemes may be obtained from the office of IDFC Mutual Fund, One India Bulls Centre, 841, Jupiter Mills Compound, Senapati Bapat Marg, Elphinstone Road (West), Mumbai - 400 013. Contact 1-800-226622 for details.

**For details please read the respective Scheme Information Document (SID) (including those of FMPs)/ Offer Document (OD) / Statement of Additional Information (SAI) carefully before investing.**
