All investment shall be made based on the rating prevalent at the time of investment. However, in case of an instrument having dual ratings, the most conservative publically available rating would be considered. In the event of any deviations from the floor and ceiling of credit ratings specified for any instrument, the same shall be rebalanced within 30 days from the date of said deviation. Such changes in the investment pattern will be for a short term and for defensive consideration and the intention being at all times to seek to protect the interest of unitholders. In case of non availability and taking into account the risk reward analysis of NCDs and CPs the scheme may invest in T-bills, CBLO or Bank CDs of highest credit rating i.e A1+.
