### OUTLOOK AND OPERATIONS OF THE SCHEME(S)

#### A) Equity Market Outlook

Macro-economic conditions in India have improved substantially over the last couple of years. A much better situation on fiscal and inflation front augurs well for the health of the economy and is likely to catapult India into its next phase of growth and development. Equity market buoyancy over the last one year has primarily been driven by expectation of this strong growth period. However, the situation on the ground has not improved significantly and growth for corporate India continues to remain anemic. Given the large run up in the market, we see limited potential for large capitalization stocks to re-rate further. Earnings growth is likely to be the key driver of stock movement going forward and focus in the coming month will largely be on corporate earnings for the 4th quarter and business outlook as seen by managements of these companies. Our portfolios are driven by underlying fundamentals of the business and we continue to follow the same principles. We continue to invest in companies which have best in industry operating matrix and scalable business model with low/no leverage that we believe will be able to execute well and can participate in the growth story of the country.

#### B) Debt Market Outlook

Our average inflation forecast remains centric around 5% while the RBI has indicated a real rate target of 1.5 – 2%. Basis these we have held a view of repo rate going to at least 7% by end of this financial year. More would depend upon more aggressive supply response from government and/or an intensification in the global deflationary environment and vice versa. If RBI's monsoon risk gets mitigated via government action then it would be quite amenable to further rate cuts. (However, the tone and assessment from the latest policy definitely points to a sizeable waiting period for deciding on the next cut). The 'term spreads' on the yield curve have opened up significantly (up to 75 bps) so as to allow investors enough compensation for the wait. Furthermore, RBI remains neutral and data dependent while being cognizant of a very weak demand environment. By no means then can one confidently call this the end of the rate cycle. If incremental data proves conducive, market will quickly build in the next rate cut. Finally, and this is to address once more those concerns that this is a re-inflation cycle, so long as the local credit multiplier and the state of the external economy remains as weak as it is, this remains an environment fundamentally bullish for bonds. We also remain watchful for global developments potentially forcing RBI's hand so that either the balance rate cuts come quicker and / or the central bank eventually settles for a lower real rate target. The relative strength of the rupee is a variable that we have flagged for some time. This is likely to be a significant input into policy decision making in the year ahead.

IDFC Mutual Fund as on March 31, 2015 offers 91 schemes. The Managements of IDFC AMC Trustee Company Limited (the "Trustee") and IDFC Asset Management Company Limited (the "AMC") are responsible for the preparation of these financial statements that give a true and fair view of the financial position and financial performance of the Scheme in accordance with accounting policies and standards as specified in the Ninth Schedule of the Securities and Exchange Board of India (Mutual Funds) Regulations, 1996 ("the SEBI Regulations") and amendments thereto, and in accordance with the accounting principles generally accepted in India. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

#### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with the Standards on Auditing issued by the Institute of Chartered Accountants of India. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Scheme's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Scheme's internal control. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

The Managements of the Trustee and the AMC are of the opinion that mutual funds are governed by a self-contained regulatory framework, i.e. the SEBI Regulations, based on which the financial statements have been prepared.

Our opinion is not qualified in respect of this matter.
